PROFESSIONAL SUMMARY

Senior Frontend Developer with 7+ years of experience building scalable fintech, SaaS, and enterprise web applications. Experienced across Vue.js, React, and Angular, with strong expertise in TypeScript and JavaScript. Focused on frontend architecture, reusable component systems, state management, web accessibility (WCAG 2.1), performance optimization, and REST API integration.

TECHNICAL SKILLS

Languages & Web: JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS/SCSS, LESS

Frameworks & Libraries: Angular, Vue.js, Vue 3, Nuxt.js, React, Next.js, Pinia, Vuex, Redux, Vue Router

Frontend Engineering: Frontend Architecture, Component Architecture, Design Systems, State Management, Performance Optimization, Web Accessibility (WCAG 2.1, ARIA, a11y), Responsive Design, REST API Integration, Cross-Browser Compatibility

Backend & Data: Node.js, Express, Python, FastAPI, MongoDB, MySQL

Tools & Platforms: Adobe Experience Manager (AEM), Dynamic Media (Scene7), Git, GitLab, Bitbucket, Webpack, Vite, Figma

Testing & CI: Playwright, Selenium, REST API Testing, GitLab CI

AI-Assisted Development: Claude Code, Claude API, Model Context Protocol (MCP), Agent Skills, Subagents, RAG

PROFESSIONAL EXPERIENCE

Senior Frontend Developer | EGS Armenia

Yerevan, Armenia | April 2023 - Present

Tech Stack: *Vue.js*, *TypeScript*, *JavaScript*, *Adobe Experience Manager (AEM)*, *LESS*

- Architect and develop high-performance fintech platforms using Vue.js, TypeScript, JavaScript, and Adobe Experience Manager (AEM), with a focus on scalable and reusable component architecture.
- Implement WCAG 2.1 accessibility across complex applications, including ARIA patterns, keyboard navigation, focus management, and focus-visible behavior.
- Own complex frontend architecture and UI logic across multiple product teams, establishing reusable patterns and maintainable component structures.
- Design and develop responsive, cross-browser experiences while maintaining performance and architectural quality.

Frontend Developer | Willing and Able LLC

Yerevan, Armenia | December 2020 - April 2023

Tech Stack: *React*, *Vue.js*, *TypeScript*, *JavaScript*, *Redux*, *Vuex*, *Vue Router*, *Angular*, *SCSS*, *Webpack*

- Architected and developed the frontend for a certification training platform, delivering complex exam flows, dynamic question rendering, and progress-tracking functionality.
- Developed time-logging and invoice-generation workflows integrated with REST APIs, supporting employer reporting and administrative processes.
- Developed a multi-party document-signing workflow with real-time negotiation state management and complex state synchronization.
- Built reusable components and application patterns across multiple product features using React, Vue.js, and Angular.

Frontend Developer | Compass LLC

Yerevan, Armenia | July 2019 - September 2020

Tech Stack: *HTML*, *CSS*, *JavaScript*

- Owned the end-to-end frontend architecture of an interactive educational platform for students in grades 1-4, including UI architecture, interactive game logic, and cross-browser compatibility.
- Built reusable UI components and animation systems shared across learning modules, improving consistency across the platform.

EDUCATION

Associate's Degree, Software for Automated Computing Systems | Abovyan State Energy College

Abovyan, Armenia | September 2009 - June 2013

LANGUAGES

Armenian: Native | Russian: Advanced | English: Intermediate
